

## What Should I Bring To Make My Airshow Experience Great?

- Comfortable walking shoes – the Airshow is held on nearly 100 acres of open grass fields. Terrain can sometimes be a little uneven and with so many airplanes to see, there will be lots of walking.
- Lawn chairs or a blanket to spread on the ground to sit and watch the show.
- Sunscreen! Especially for your little ones. There is little to no shade on the airfield and we'd hate to see a sun burn bring your day to an early end.
- Water bottles. Water and other beverages are also available for sale on the Airshow grounds.
- Camera and/or video camera. There will be opportunities all day to capture those fun family memories.
- Autograph book/paper and pen to get autographs from the pilots and performers!
- Ear protection – some of our aircraft are EXTREMELY loud.
- Money for snacks, drinks and souvenirs!
